THE following Catalogue of the Alumni of the School of Medicine has been prepared, under the direction of the present Faculty of Physic, from such sources as could be relied upon, in the absence of the regular records, some of which are missing. For the years 1819, 1820, and 1821 the catalogue is defective, and the Faculty will be under obligations to Alumni who graduated in either of those years if they will communicate their names and date of graduation to the Dean.

The names of gentlemen who have received Honorary degrees are printed in *Italics*.

The degree of Bachelor in Physic is denoted by the mark †.

Baltimore, March 1, 1850.
